ARCHITECTURA

GAME OVERVIEW

In this game, you will take turns playing the cards to the city grid of blocks and streets. Each card has its own value, and it may change during the game because of other cards.

DURING YOUR TURN

1. Play a Card...

To start a new street (the 1st or the next one) **or** To the right of an occupied space **or** Over a destroyed card

SETUP

Take a deck of 12 cards and 2 protection tokens of your color. Shuffle your deck, place it face down and draw 3 cards from the top.

Note: In the basic game, all players use the identical sets of cards—the only difference is their color. This info is useful during the game!

2. Compare the Values

If **the value of the card to the left** is...

...higher, its value increases.
The customer service in the Store is way better than on the Market!

...lower (but not 2 times lower), its value decreases.
The Park doesn't seem so spacious anymore with the Mansion next to it!

...two or more times lower, that card is destroyed. Flip it, but leave it on the same space.
There is no place for a Barn near the Temple!

...the same, nothing happens!
Good match!

There are 2 special cards in your deck. Compare their values the same way!

Its value is equal to the value of the card to the left of it.

Its value is equal to the number of the block it's placed in.
